

**Zenec.naviextras.com** is the official map and content update portal for ZENEC naviceiver devices running on customized iGO navigation software. The website is available in 9 languages, includes online support and offers a wide selection of maps for over 75 countries, compatible with all ZENEC devices that feature GPS functionality.

## Why update your navigation software?

- Bridges, highways and road junctions worldwide are being closed and opened every day
- Street names and traffic rules change frequently
- Extend maps that were originally installed in your navigation device\* for your holidays and business travels
- Buy TMC Pro lifetime license to benefit from dynamic re-routing in traffic areas of high density

\* Offered content can vary depending on device.

## Advantages of Zenec.naviextras.com

- Enjoy easy access to map updates and additional maps
- Redeem your "latest map guarantee" by downloading up-to-date maps\* within 30 days after first activation of the nav software on your device by GPS signal
- Improve your personal navigation experience by adding and updating 3D extras, points of interest, voice profiles etc.
- Subscribe to traffic information services
- Pick your favorite discounted choice from a wide selection of single updates and annual map subscriptions during promotional sales activities
- Sign up for the Naviextras newsletter to receive the latest news, special offers or critical updates for your device
- Conveniently pay selected content 24/7 with your credit card online

\* If new maps are available.

## Navigation content updates & customer support

- Should you encounter difficulties during the installation of a map update or extra content, contact the naviextras support team to obtain help: <https://zenec.naviextras.com/shop/portal/support>
- For map update guidelines fitting to your particular ZENEC device, visit <http://www.zenec.com/de/support/softwareupdates/> and select your model respectively.
- In case you find map errors or route guidance inconsistencies, you can report to Tele Atlas directly to obtain a tech ticket and a (potential) fix for the problem as follows: <http://mapinsight.teleatlas.com/mapfeedback/index.php>

## MAP UPDATES

Did you know that 20% of European roads change every year? New roads are built, existing ones are altered, traffic rules and speed limits are changed, and on top of all this, new restaurants, hotels and other businesses open every day.

With up-to-date maps you can avoid unpleasant surprises and detours, arrive faster and drive more safely.
